

This year, West Side will partner with Bethel Church in our Christmas outreach.

How do we find families?

They are referred to West Side from Marcus Whitman Elementary, our Benevolence ministry, and Prison Fellowship. We do not accept “walk-ins” for our Christmas outreach. We are hoping to help approximately 20-25 children.

How will we partner with Bethel Church?

We have been invited by Bethel to bring those in need to their Christmas Shop. Both churches will participate in providing gifts and other items for families in need (see “Ways to Participate”).

What happens on Dec. 16 when parents come to shop?

Parents will be assigned a specific time and will be greeted by a Family Host volunteer who will escort them through various stations. Parents or caregivers of our Prison Fellowship children will move through the stations at their own pace. Stations will include toys, coats, mittens and hats, gift wrapping, gift cards, family fun night boxes, with breakfast/lunch provided. Each gift will cost 25 cents each, with families allowed to purchase 2-3 gifts per child (depending on total gifts donated).

Why are we making this change in our Christmas giving?

We want to shift the focus of our program from the givers to the receivers. It’s honoring and empowering for a parent to tell a child on Christmas morning, “I purchased and wrapped these gifts for you!” Many of us have never been in a position where we couldn’t afford gifts for our families. Helping a parent purchase gifts allows him/her to be the main giver and strengthens the parent-child relationship. They are a hero in their child’s eyes.

Guiding principles for giving:

- All giving should carefully consider the dignity and self-worth of those receiving support.
- Giving to those in need feels good to those giving, but it is equally import to feel good to those receiving.
- There is great value in hard work and independence. Purchasing gifts for loved ones affirms a sense of dignity and personal responsibility that has redeeming value.
- Parents/guardians deserve the opportunity to personally purchase gifts for their children. We view this as a hand-up in place of a hand-out.
