This is a continuation from the Winter course. We will continue to look at ten essential qualities of our God. There is a basic biblical principle that teaches us that we

become like that which we worship. God reveals Himself so that we might know him, worship Him, and even enjoy Him. To commit ourselves to knowing Him as He reveals himself. To give up our own ideas and seek to overturn misunderstanding and misconceptions is to step into our salvation. As we come to know the one true God, in all of his beauty and goodness, we will be changed and our passion to trust and follow Jesus will only increase.

We will have about 40 minutes of large group teaching and discussion. Then A2 Life Groups and Life Groups will have the chance to meet, pray and grow together. We will also form discussion groups for people who are not yet in a Life Group. We believe that the process of actively discussing and wrestling through the material will increase our learning.

There is no greater or inspiring opportunity than to commit ourselves to grow deeper in knowing the one true God.

*The New Life Course provides three years of foundational instruction to help us live into our life with Jesus. It is especially geared for people who have already gone through Alpha and are in an A2 (After-Alpha) Life Group. But it is open to anyone who would like to go deeper into the foundations of our faith as well as any Life Group that would like to opt into this material.*

#### **Recovering Science as a Gift to Better Understand and Steward God's Creation**

**April 24 - May 15**

*Facilitators-various from Flourish Mid-Columbia*

WS North tbd

Come hear about the place and purpose of science and its relationship to Christ and our part in His stewardship of creation. These presentations are part of the Flourish Mid-Co-

lumbia initiative to further local conversations on the relationship between faith and science with an aim to integrate faith, work, and everyday living. We will discuss the following: • April 24 - In the Beginning, • May 1 - Science and Faith: Conflicting or Enriching?, • May 8 - Confidence in our Creator: Where Science Meets God, • May 15 - The Privilege Planet

#### **Impact of Screen Time on Kids - May 22**

*Facilitator-Lisa Nelson from Can Do Kids*

WS North tbd

Come learn about screen time and the impact it has on physical, social, and emotional

development in children and youth. We will discuss the criteria for technology addiction and the American pediatric academy's recommendations for screen time. We will also talk about the effects of screen time including developmental delays. Current research related to the brain and technology will be presented as well as ideas for parents to address these issues.
